

Gas Station Compliance Checklist

A sample assessment checklist — run this and more inside iakkr.

Fuel Systems

- ☐ Underground storage tanks inspected per local regulations
- ☐ Fuel pump calibration verified within the last 12 months
- ☐ Leak detection system tested and functioning
- ☐ Spill containment kit stocked and accessible

Safety & Environmental

- ☐ Fire suppression system inspected and tagged
- ☐ Emergency shutoff signage clearly visible at all pumps
- ☐ Hazardous materials stored and labeled per regulation
- ☐ Environmental compliance permits current and on file

Point of Sale & Operations

- ☐ POS and pump integration tested (pay-at-pump, inside sales)
- ☐ Age-verification process in place for restricted products
- ☐ Security cameras operational and covering all pump islands
- ☐ Cash handling and drop-safe procedures documented

Compliance

- ☐ Business license and fuel-dealer license displayed
- ☐ Weights and measures certification current
- ☐ Signage pricing matches posted pump prices
